

**Erasmus+ Call for the award of mobility scholarships for study purposes a.y.  
2025/2026**

**HIGHLIGHTS**

This document is meant to be a **summary of key steps and deadlines of the procedure**, in order to support and help international students.

**The complete Call - Italian version - has to be carefully read: if you apply for an Erasmus Grant, you accept all rules contained in the Call and, in general, in the Erasmus+ Programme.**

**This call is conditionally issued and subject to the possession by the host institutions of the ERASMUS University Charter.**

**All contents, activities and funding provided may be subject to change following indications and/or provisions, subsequent to the issue of the Call, provided by the European Commission, the Erasmus+ National Agency INDIRE and/or other Institutional Bodies.**

**The number and conditions of the mobility flows could undergo variations, even after the issue of the Call, if the partner University modifies the admission requirements or modifies/cancels the mobility flows, even if agreed with the University of Genoa. The latter cannot intervene in any way on the choices of foreign Institutions. Changes may also occur following technical implementation of the EU platform *Erasmus Without Papers (EWP)* used for the negotiation of agreements with foreign institutions.**

**The overall number of grants awarded is subject to the availability of funds.**

**Any changes will be made official and communicated to the students concerned through the institutional channels.**
